Subject Index to Volume 4

Activity modeling 209
AI concepts 441
Applications 355
Artificial intelligence 183, 269, 387
Associated random variables 433
Autoregressive moving-average (ARMA) model 199

Behavioral decision theory 461
Belief functions 433
Branch-and-bound 183

Classification 199
Comparative evaluation 249
Conflict resolution 167
Consensus 313
Consensus degree (measure) 313
Contracts 27
Corporate decision making 365
Corporate information systems 365
Corporate planning 365

Decision analysis 405, 461
Decision styles 355
Decision support 405, 491
Decision support system 313, 413, 481
Deontic support systems 111, 199, 225, 235, 249, 355, 365, 387, 441, 473, 503
Deep modelling 387
Default reasoning 111
Dempster Shafer theory 235
Design of trailer dredgers 491
Dectonic logic 27
Development 355
Diagnostic problem solving 235
Disjunctive methods 71
Distributed systems 387
Documentation methods 209

Electronic contracting 27
Entity–relationship diagram 225
Evidence 433
Expert judgment 461
Expert system 405
Expert systems 179, 225, 441, 461
Extended sample autocorrelation function (ESACF) 199

Features 199
Forward chaining 179
Functional-logical programming 441
Future trends 355
Fuzzy logic 313

Genetic algorithms 387
Goal programming 167
Group assignments 473
Group decision making 167, 313
Group decision support system 167

Hierarchical decision systems 365

Inductive learning 199
Inexact reasoning 235
Inference systems 433
Information requirements analysis 209
Integer programming 45, 183
Intelligent decision support 285
Interactive planning system 413

Knowledge acquisition 269, 307
Knowledge-based decision support systems 269
Knowledge based systems 235, 387
Knowledge elicitation 269
Knowledge representation 71

Linear discriminant 199
Linguistic quantifier 313
Logic 3, 87, 111
Logic and databases 3
Logic modeling 27
Logic programming 3, 71, 111
Logical design 225
Logical inference 45

Machine learning 285
Man–machine interaction 413
Management decisions 269
Manpower planning 503
Microcomputer applications 167
Mixed integer programming 71, 179
Model 413
Model data handling 503
Model generation 503
Model management 285
Model management systems 387
Modelling 387
Multiple-criteria decision-making 167

Negotiation support system 167
Negotiations 167
New technologies 473
Non-linear optimization 491
Nonmonotonic logic 3, 111
Normative decision support 387

Operations analysis 235
Operations research 413

Pattern matching 199
